

Leveraging HR Data: Metrics, Analysis, & Analytics

Fast, Affordable, Stackable

Learning Outcomes

Data-Driven HR - Metrics vs Analysis vs Analytics

Define and differentiate between HR metrics, analysis, and analytics.

Identify and describe key HR metrics for measuring workforce performance, such as turnover rate, employee engagement, and time-to-hire.

Evaluate the effectiveness of HR metrics in providing insights into workforce performance and informing business decisions.

Analyze data using statistical and data analysis techniques to identify trends and patterns in HR metrics and develop actionable insights.

Understand the role of technology and data management tools in HR analytics, such as HR information systems (HRIS) and data visualisation software.

This programme is for:

- Professionals who are looking for short university HR credentials
- Empowers participants towards senior management and HRBP roles.
- HR Professionals & Practitioners.
- Business Unit Heads who manage team performance
- Mid-Senior level executives in management
- Enhance practitioners' competencies in line with Malaysian and international strategic leadership and HRM standards.
